			D4. Capstone (6 credits)
E. Free Electives (108 credits)			

*A second major in Global Creative Industries is also available for non-BA(GCIN) students from 2026/27 (72 credits).

Interdisciplinary Education

Explore the global intersection of creativity and commerce and prepare for diverse careers through specialized concentrations and hands-on experiences.

BA(GCIN) offers a future-ready, interdisciplinary education that connects arts with business, culture, and technology, equipping students with industry insights for emerging creative careers. It explores how cultural, economic, social, and political forces drive the convergence of creativity and commerce.

Areas of Study

Our expertise in humanities research and cultural practice has shaped the programme's four concentrations, including **Film, XR and Interactive Media; Games, Play and Digital Cultures; Heritage, Memory and Cultural Industries;** and **Performance and Live Arts.**
